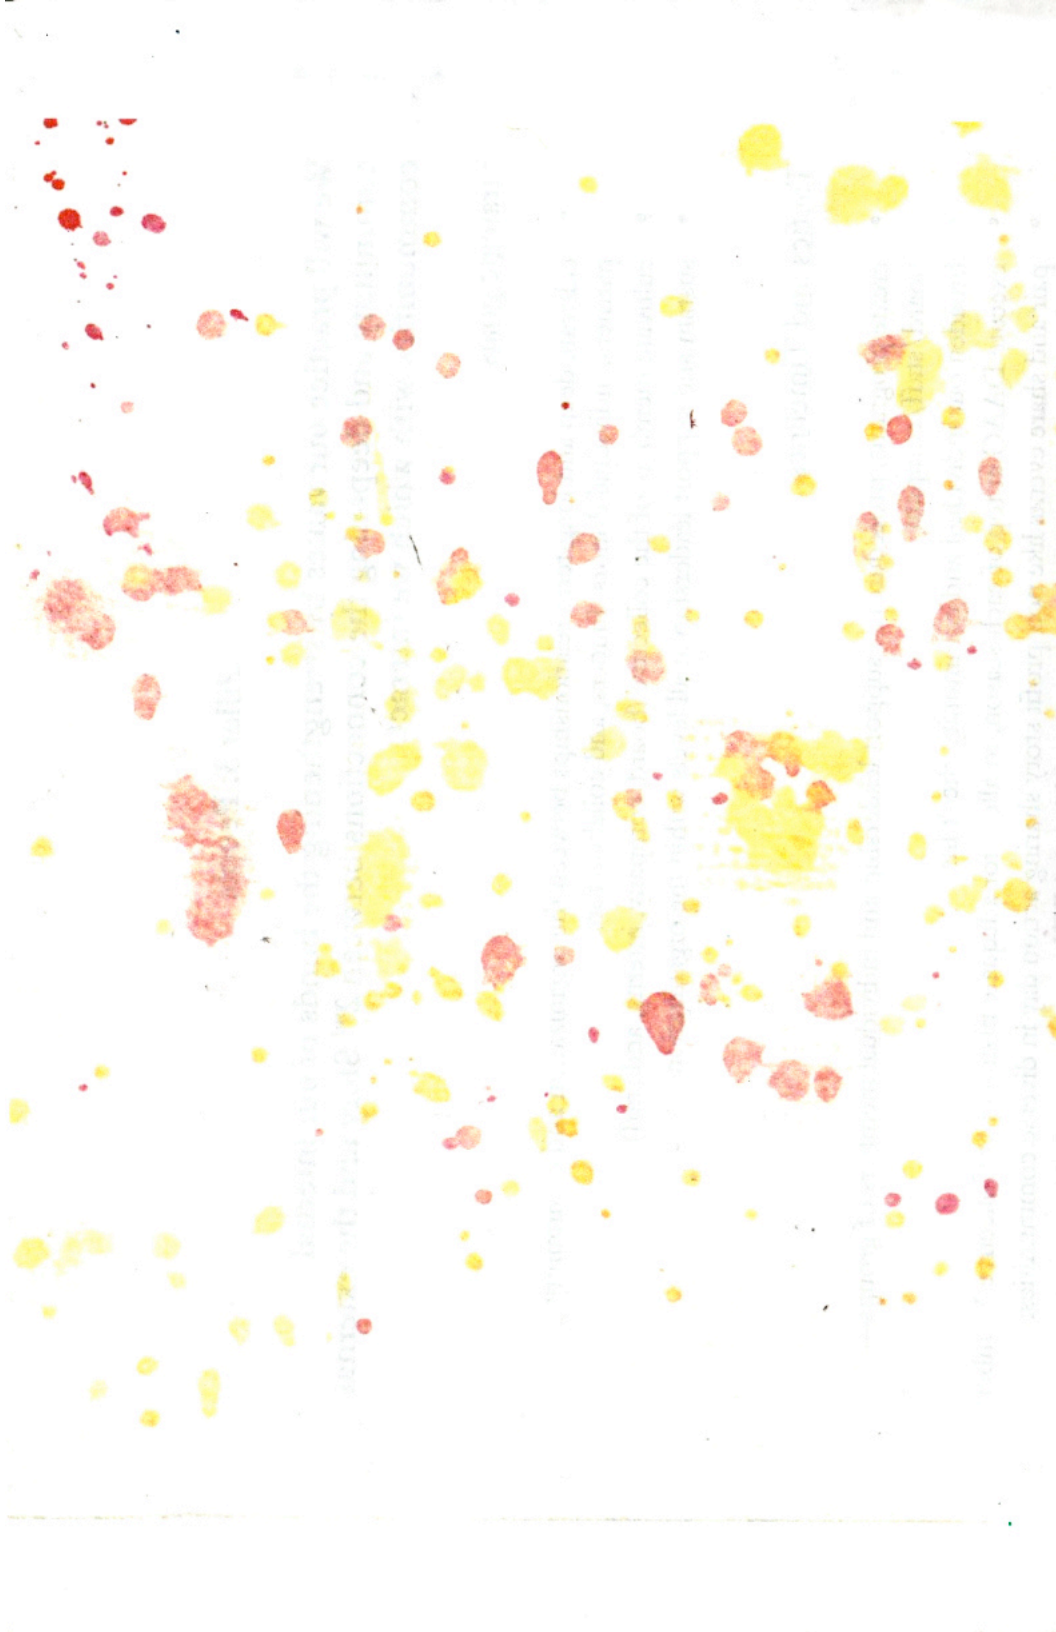
LINING
BOOK
Wiiiiith...
WATUR COLORZ!



Welcome to this Lining Book...

The idea is simple: Grab your favorite pen(s), find a page with shapes you like, and get to doodlin'.

If that sounds overwhelming, maybe a little structure will help to get you started. Outline any edges you are most drawn to! Ink in faces and/or creatures you see in textures! Draw something over the entire page and see what happens! It's not really possible to "mess up". Even if you do feel like you have made some kind of mistake...well. It's free! Print as many of these pages as you'd like.

GET THE DOWNLOADABLE VERSION AT ARCHIVE.ORG/DETAILS/LINING-BOOK

I'll leave you with the words that a physical therapist once told me when I was embarrassed by how much I struggled to do a simple stretch...

"It's all good. There's no ego here."

have fun
everyone!
